

Theories on Rosterization and Other Stuff:

an academic treatise by Grant Brisbee

Rich Aurilia and Ray Durham used to be good.

However, that does *not* mean they are good right now.

In fact, they are quite bad.

Kevin Frandsen may or may not be better than Rich Aurilia or Ray Durham. He isn't, however, likely to be worse.

Kevin Frandsen is much younger than Rich Aurilia and Ray Durham, and is more likely to be on the Giants for future seasons.

Therefore, it is important to find out if Kevin Frandsen can be a part of the Giants' rebuilding process. I personally don't think he is talented enough, but it would be silly to make that conclusion without more evidence.

Rich Aurilia and Ray Durham will not be a part of the rebuilding process. I base this on:
a) their being old, and b) not good.

Kevin Frandsen should start more games before the season ends in order to determine his worth to the Giants' organization.
